Things to Do During the Pandemic

1. Stay positive and count your blessings each day
2. Abide by the guidelines - they are working so please be patient.
3. Talk to someone every day - either by phone or in person
4. Get into a good pattern of eating and sleeping
5. Get exercise wherever and whenever you can.
6. Look out for others in need and help them when you can.
7. Pray each day and link in to Masses online.
8. Remember, the pandemic will end and there will be brighter days ahead.

The Gift of Hope

Hope is one of the great Christian virtues and it must be nurtured in each one of us. These are challenging times for us as we try to cope with a pandemic that will soon be a year old. St Paul has good advice for us in his Letter to the Romans 12:11. He says '*If you have hope this will make you cheerful. Do not give up if trials come and keep on praying.*' So keep up the spirits, do not lose heart and keep on praying. Be patient and do nothing to endanger your own health or the health of others.

A Poem

Extracts from a poem by Amanda Gorman, a young black American woman, which she read at the inauguration of President Joe Biden on Wed. last.

When day comes we ask ourselves,
where can we find light in this never-ending shade? ...
Let the globe, if nothing else, say this is true:
That even as we grieved, we grew
That even as we hurt, we hoped
That even as we tired, we tried ...
The new dawn blooms as we free it
For there is always light,
if only we're brave enough to see it
If only we're brave enough to be it.

Being a Good Neighbour

During the lockdown and the winter time of the year of the year we ask that you be especially vigilant and look out for elderly neighbours, those who live alone and may be feeling isolated and lonely. Just make a phone call or call to their door to make sure that they are warm and have food in the house. Usually all that is needed is a friendly voice and a listening ear.

Pope Francis Receives Vaccine

Pope Francis received the Covid-19 vaccine on Wednesday week last. He said: 'I think that ethically we should all receive a vaccine. It's an ethical choice because you are playing with your health, your life, but also the lives of others.' He also urged richer countries to ensure that poorer countries received an adequate supply of vaccines. The vaccine will be the game-changer in this pandemic. So we ask you to be vigilant and patient and when your chance comes to receive the vaccine. You will be doing this not just for your own wellbeing but also for the well-being of others.

Getting Exercise

It is important that if possible that we get a bit of exercise and fresh air each day. It is good for the mind and the body. It helps to reduce anxiety and depression. So exercise well but please do so with care.
